September 6, 2017

To Whom It May Concern,

I've known Charles Allen for decades, and through those years, we've developed a meaningful personal friendship as well as an excellent working relationship. Years ago, Charles and his outstanding team, (now SafeBridge Benefits Alliance), were selected to handle our total employer benefits package. They immediately began to greatly help us by architecting an ideal Total Employer Benefits package... at the absolute lowest price points, which have delivered overall savings to our company's bottom-line.

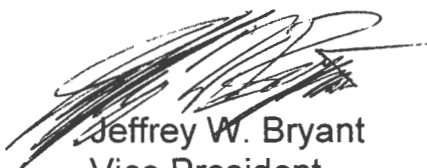

From the very outset, Charles was able to show us how to significantly decrease our overall primary health care plan costs - while improving the overall level of health care benefits to our employees and their loved ones!

Charles' team has demonstrated exemplary client service and professionalism at all times to Bryant & Company, Inc. and our employees - as well as an impeccable degree of integrity.

Last but not least, Charles has helped me personally with some of my important individual policies and long-term investments - from which I've consistently profited.

As a major builder of gas stations throughout the Southeast, Bryant & Company, Inc. strongly recommends the SafeBridge Benefits Alliance to all employer groups who seek to improve the quality and cost-effectiveness of their overall executive and employee benefits packages!

Respectfully,

Jeffrey W. Bryant
Vice President
Bryant & Company, Inc.
