To Whom It May Concern,

After many years of having numerous Employee Benefits sales people confusing our employees with competing messages, each working for the vested interests of their respective companies, we were thankfully referred to The SafeBridge Group by Mark Rogers.

The SafeBridge Group is a leading Southeastern, U.S. Employer & Employee Benefits Consultancy which is 100% independent, and has high level contracts with virtually all of the nation's top benefits providers. We quickly discovered that SafeBridge didn't work for any of these top providers. Instead, all of those top providers worked to gain the business of SafeBridge! This strategy allows SafeBridge to work for us and provide our employees with the best benefits for the best price. As a result, our company now enjoys premium benefits from various top benefit providers.

We found our employees were excited about the savings and the ability to choose to use these savings to increase coverage or increase their take home pay. We at McGraw-Webb have greatly appreciated the independence, educational & consultative approach of SafeBridge's team of Employee Benefit Specialists.

Lastly, no other benefits provider has ever offered us all of the additional value-added benefits which SafeBridge made available to our employees free of charge. The exceptional full-time client service has been uplifting to myself and our McGraw-Webb employees! Beth and Charles are very caring, professional and prompt to handle any issue that may arise in our benefits package.

Glad we made the switch!

Sincerely,

*Alesia McGraw- President
